
MLD
LED MAGNIFIER

MLD – FLAWLESS VISION

A perfect combination of optimal 3.5 diopter magnification and high light quality – the MLD magnifying luminaire can be used wherever a closer look is needed. The 2D head joint along with a wide field of vision allow for adjustability with comfort and ease. The 6.3-inch distortion-free lens and premium

LED light surround offer clear, glare-free vision at the work surface. In addition, the dimming functionality makes this magnifying luminaire an indispensable tool for many industrial applications where intricate work is performed.

- LED technology
- Color temperature neutral white 5000K
