
WLA
WORKPLACE-SYSTEM LUMINAIRES

WLA LED, Waldmann's task light for workbenches brings superb light quality (CRI>80) and color temperature (5000K) along with extreme energy-efficiency (50,000 hours of maintenance-free operation) to the factory workbench. The three lengths (35.4", 47.2" and 59") make this strong, durable work light easy to match fixture to work space, no matter the size. In addition, all versions are designed for easy thru-wire installation.

FEATURES:

- LED overhead workstation light
- 50,000 hours of maintenance-free operation
- Through-wire capability for daisy-chaining
- Housing of anodized aluminum
- Premium LED materials and technology
- 5000K color temperature
- Built-in Wieland GST18i3 connector/socket
- T-Bracket set included
- ETL/cETL approved
